There will be no special celebration of the day in this vicinity and the people generally will take a rest, which will be about the most sensible thing to do. -The Tionesta Base Ball Club will serve ice cream and cake in W. J. Campbell's office, between the White Star Grocery and the Lawson plumbing shop on the evening of the Fourth. Turn out and give the boys a lift. -Prof. D. W. Morrison, formerly of the North Clarion Public Schools, has been elected principal of the Tionesta Public Schools. We congratulate Tionesta on securing a capable teacher and an excellent citizen-Clarion Republican. -C. M. Arner & Son, having just installed a new Smith Premier typewriter, are prepared to do all kinds of typewriting, copying, etc. for the public in an artistic manner and at reasonable rates, call at the office when in need of such service. -I. N. Patterson has rigged up for his third well out near the Poseyfield, in Hickory twp. Mr. Patterson has upward of a thousand acres leased in that territory and will give the field a thorough test. He is noted for his thoroughness when he goes searching for the pay-streak. -A telephone message was sent out from Franklin last Wednesday asking the authorities up the river to stop all rafts and flat-bottom craft that might be on their way to Pittsburg, and to notify the pilots that the river was blocked at Franklin on account of two spans of the old Valley bridge having been blown down and obstructing the channel. The channel is now open again, W. G. Rogers, who has been helping to clear away the obstruction, having returned from there Monday evening and so reports. -The reward offered by the commis-sioners of Allegheny county for the capture of the Biddle brothers has been divided among the claimants. The settlement was made recently by attorneys representing the Butler county officers and Pittsburg detectives. By the terms of the agreement reached \$2,400 goes to the Butler county contingent and \$2,750 is to be divided among three Pittsburg detectives. J. G. Spiana of Pittsburg and John Gregory of Cooperstown, who was in charge of the National Transit Company wires and gave the information that led to the capture of the Biddles, are to divide the remaining \$250.

No Paper Next Week. The REPUBLICAN will skip an issue next week. The 4th of July is coming and the event must be patriotically observed, and everybody about this office is nothing if not patriotic. The office will be open all week, however, for the transaction of business, and having just printed a lot of neat handy little subscription receipts we would be delighted to present an unlimited number to our patrons. So drop in. -Mr. W. T. Stead's article on "The South African Peace, the Coronation, and the British Outlook," written especially for the American Monthly Review of Reviews for July, touches on many topics uppermost in the public mind of England when the coronation festivities were suddenly interrupted by King Edward's illness. -The Gypsy Queen as presented by the Tionesta Lyceum company, was the theatrical attraction at the Pleasantville opera house last Friday evening. The play was very well received, but by some oversight had not been properly advertised and the audience was not as large as would otherwise have been. The troupe reported a nice time, just the same. -In this issue will be found the time card of the Sheffield & Tionesta Ry. The road, which covers the ground between Nebraska and Sheffield, a distance of over forty miles, along the beautiful Tionesta creek, is now running passenger trains on schedule time and the nice patronage it is receiving is an evidence that the people living along the route appreciate the accommodation thus afforded. -People do not drink enough water. A physician who is constantly meeting people who have what are commonly termed chronic diseases, observes that a large per cent. of all who apply to him for treatment state that they do not drink much water. These patients often do well when sent to mineral springs, or when water of such springs is brought to them. Then they drink water freely, improve, and attribute their improvement to the use of the mineral water. If these same people would drink a large amount of any pure water they would note an improvement, and it would be as marked as that indicated from drinking the mineral waters. -Sherlock Holmes' greatest piece of detective work is done in the new story by Dr. A. Canan Doyl, "The Hound of the Baskervilles." Holmes himself says to Watson, his co-worker, "Here at last is a human worthy of our steel." The result is a story which, for thrilling interest, stands by itself. From the first discovery of the hound's trail, when the dried-up young doctor brings to Sherlock Holmes the ancient manuscript, to the final scene where the great detective is brought face to face with the monster of the moorland, there is not a sentence that does not carry the reader breathlessly forward. It is a great novel, with a great subject, by a master of the craft. This thrilling story begins in The Philadelphia Press Sunday, July 6. Be sure not to miss it. -The explosives mostly used in the manufacture of fire crackers are dynamite and potash. The potash is used in the toy pistol caps and is dangerous at all times. There is a state law governing the sale of fire crackers which reads: Section 14-B. It is enacted, etc., that from and after the passage of this act, any person or persons manufacturing or selling fire crackers containing dynamite, chlorate of potash or any explosive, except that containing ordinary gunpowder, composed of saltpeter, sulphur and charcoal, shall be guilty of misdemeanor, and upon conviction thereof shall be sentenced to pay a fine of not less than \$50 nor more than \$100, or by an imprisonment for a term of not less than six months nor more than one year or both, at the discretion of the court. -Next Sunday afternoon at 3:45 Rev. M. L. Fredrick, lately graduated from a Lutheran Seminary of Columbus, Ohio, will be installed in his charge by Rev. H. J. Reimann of Oil City. The sermon which precedes the ceremony of installation will be preached by Rev. Reimann himself. No member of the German Hill congregation should be missing. All friends and interested persons are heartily welcome. Sunday School, in connection with a rehearsal for children's day begins at 2:15 in the afternoon sharp. All children of the congregation are requested to be present and begin to practice their respective parts without further delay. The date for Children's Day has not yet been determined but will be made in due time. All depends on the progress made by those who wish to participate. -Editors are the first to hear of gossip or scandal, indiscretions of men and of women, things unfit for publication, intrigues, clandestine meetings, flirtations of married women, night buggy rides, young girls gone astray, rumors of the married men, and in fact all neighborhood scandals. Editors generally know all the naughty doings in the community no matter how secret. If one-half the hear were published, divorce suits would follow in some cases, social ostracism in others, shotguns and gore, imprisonment, lynching, desolate homes, shame and humiliation and misery. The editor also learns of much sham and hypocrisy of life, and it is a wonder that he believes anything on earth or in the hereafter. People who abuse him the most often owe their standing in society to his forbearance-Warren Times. -The Titusville Courier tells this fish story about a former pastor of the M. E. church of this place: "Rev. John Lusher, former pastor of the M. E. church here, had quite an experience the other day. He was trolling for muskellunge in the lake, when he got a strike of a big fish. In his excitement while endeavoring to land the prize, he being quite corpulent, got too near the edge of the boat and it capsized. The gentleman clinging to the line and other fishermen who were near hastened to his assistance and righting the boat, helped him into it. Mr. Lusher played the line until he had exhausted it and then hauled it into the boat. The muskellunge weighed 18 pounds. The gentleman, as is well known here, is an ardent sportsman and the ducking will not have the effect of discouraging him from making further efforts in that line."

A. in wishing him and his all the joy and peace that can come from a happy union of hearts. The Stitzinger Salary Case Decided. Judge Simonon of the Dauphin county court rendered a decision on Friday last in the equity case brought by the school boards of Forest county against E. E. Stitzinger, superintendent of schools, involving the question of amount of salary to which he was legally entitled under his election in May, 1899. The opinion, according to dispatches in the daily papers, "enjoins Superintendent of Public Instruction Schaeffer from paying any salary to Supt. Stitzinger until the difference between the payment of a \$1,500 salary and the lawful salary of \$1,000 shall have been made up. It was claimed that Stitzinger had no right to the salary of \$1,500, and the court upholds the school boards, which brought the suit." The people of Forest county are familiar with this case and the final disposition of it in the courts seems to vindicate the action of the school boards in suing for the money to which the taxpayers were legally entitled, the excess above \$1,000 having been taken from the appropriation for Forest county. T. F. Ritchey Esq., attorney for the school districts, has received the full text of the opinion of Judge Simonon. For specific rates and conditions, apply to ticket agents. The Same Old Story. J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and re-told by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. Sold by Killmer Bros., Tionesta, W. G.
